

VIRUSES: MATHEMATICAL VISUALISATIONS

8 - 12 June, 2015

An interactive exhibition exploring the symmetries of viruses and recent advances in our understanding of virus structure. Collaborative work between Briony Thomas (University of Leeds) and the Twarock group (University of York).

Public lecture and workshop: 9 June, 2015: 17:30 - 19:30

Ron Cooke Hub, University of York
