Research interests

My research is at the intersection of Human-Computer Interaction and the Learning Sciences. I am particularly interested in building technology that can provide real-time, adaptive scaffolding for skills and processes associated with effective learning across disciplines. My current research is focused on developing tools to help novice programmers recognise and recover from misconceptions about fundamental programming concepts.

Employment

Lecturer in Interactive Media

Lecturer
Theatre, Film, TV and Interactive Media
University of York
Baird Lane, York
1 Sept 2021 → present

Lecturer in Computer Science

Northeastern University
Boston, United States
1 Sept 2018 → 1 Aug 2021
